

7 (March)

CONTENTS

Effect of Preventing Buildings from Overheating by Shutting Out Solar Heat	Shoichi OBATA	(1)
Extended Models of Two-way Finite Automata with Quantum and Classical States (2QCFA)	Mamoru KIMURA	(7)
Development of the Thermal Conductivity Computing Method Using the Monte Carlo Method	Toshiaki JIKUHARA	(13)
Observation of Ultrasonic Pulse Waves Reflected from Honeycomb Ceramics	Toshikazu SUGIMOTO	(19)
Heat Transfer in a Turbulent Boundary layer Disturbed by an Array of Spheres	Naoki SEKIGUCHI	(25)
Numerical Simulation of Flow in Rectangular Tube Using the Lattice Boltzmann Method	Seiichi TANAKA	(31)
Development of the Cilia Locomotion Mechanism for Rescue Robot Search in the Rubble	Akira NIITSUMA	(37)
A Study on Improvement of Lighting Characteristic of Mercury-Free HID Lamp	Hideyuki HASHIMOTO	(43)
Development of a Remote Controller Being Able to Reproduce the Posture of a Rescue Robot	Akihiro HAMAGUCHI	(49)
Ultrasonic Velocity Change with Plastic Deformation in Rolled Copper	Naoki YAMADA	(55)
Transportation Efficiency in Urban Area and Changes of Desirability on the Urban Development	Kousuke EGUSA	(61)
Study on a Light Intensity Profile and Air-water Boundary on the Visualized Water Surface in a Laser Induced Image	Masashi OZONO	(67)

Strength Characteristics of Muddy Soils Mixed with Granulated Coal Fly Ash	Takumi SAITO (73)
Fundamental Study on Bending Behavior of Fiber-Reinforced Plastics (FRP)	Motoki SAWADA (79)
A Study on the Residential Composting Tank by Passive Controls	Misa SUGIO (85)
Relation between the Water Content and Strength of Muddy Soil	Megumi SUMITANI (91)
Experimental Study on Bond Characteristics of Deformed Bar-Grout Cement-Sheath Systems	Hideaki TATSUMI (97)
On the Practical Sectional Design of T-Shaped Prestressed Concrete Beams in Consideration of Flexural Deformation Performance	Maki TSUTSUI (103)
Fundamental Research on the Filling Evaluation Method of Prestressed Concrete Grout	Masaya HARA (109)
Study on Local Scour and Its Reduction at the Downstream of Nature Oriented Broadcrested Weir with Culvert	Fumito YOSHIKAWA (115)

A list of works by the members of the Advanced Course :

Oral reports presented at academic societies and papers published in academic journals . . .	(121)
