

Bulletin of Advanced Course of Akashi National College of Technology

NO.12 (March.2009)

CONTENTS

A Study on the Development of a Living Sound Identification System to Use under Noisy EnvironmentsTetsuya ISHII	(1)
Applicability of the Cool-Air Grinding Method to Internal GrindingKenta OKANO	(7)
Voltage condition during anodization of p ⁺ -type porous silicon for visible photoluminescenceMari KAWABATA	(13)
Robust Control System Designs against a Structured Uncertainty using Scaling MatricesTakafumi KOSAKA	(19)
Development of a Variable-Color Flat Discharge PanelNaoki SAKAMOTO	(25)
Trial of the variable-color-discharge lamp enclosed mixed rare gasFumie SHISHITANI	(31)
Reverisble Watermarking Based on the Correlation in a Small Image Block	...Hideyuki SHIMOMURA	(37)
Optical Absorption Spectra of Microcrystalline Silicon Thin Film on High-growth-rate by Photothermal SpectroscopySatoshi TAKAHASHI	(43)
Robust Mixed L_2/D -stability Controller Designs Using an Exterior-point ApproachHideki TANAKA	(49)
Improving Performance of Cool-Air Surface GrindingTatsuya TONE	(55)
Fabrication of an organic light emitting diode using an Alq ₃ filmKentaro HOSHINO	(61)
Improvement on Reverisble Watermarking Based on Image HistogramMasakazu MITANI	(67)
Surface Observation on Fatigue Crack of High Strength SteelAries SETIAWAN	(73)
The strength of soil improvement by mixing muddy soil with expansive steel slagKeita IMANISHI	(79)
Transmission Characteristics of Many Vertical Piles as a Permeable Breakwater Using Various Cross Sections ModelYohei OHCHI	(85)
Ultimate Bending Strength of Beam Made of Glued Laminated Timber		

with Socket Type JointHirokazu OHNO (91)
Hotte Motte:Dig and Mound Environmental revitalization and Machizukuri project for Tazuruno east area, Toyooka City, Hyogo PrefectureIkuko KUNISUE (97)
An Experimental Study on Morphological Response of River Channel due to Falling Works ImprovementYoshiaki SAMOTO (103)
Distance Resistance of Traffic Between AreasTakuya TOCHIO (109)
Study on the Effective Use of Demolished Awaji Roof Tiles as a Concrete Coarse AggregateYuya NAKAJIMA (115)
INAMINO Footpath - Way of the Reservoirs and Catchment Waterway -Ryo FUKUMOTO (121)
The practice to universal society in the local community - Case studies in east Uozumi -Shumpei FUJITANI (127)
Landscape Characteristics and Residents' Attitude Toward Historic Districts - Case Study on Furumachi and Nozato -Mai MORITA (133)
Study on Material Characteristic of Wall Mud - Case of Mud Plastered Wall of Himeji Castle -Ryota YAMASAKI (139)
